五、運用案例 (中英) :

如次頁案例。

Turn to next page.

五、運用案例 (中英) :

健康氣象 e 起來 (Weather & Health for All)

為因應高熱等極端氣候所致健康衝擊，將建立適用國人之健康氣象風險預警平臺，開發各健康氣象指標、訂定風險閾值、提醒民眾因應。

(To address heat stress and other health impacts caused by extreme climate, a weather-related health risk warning platform will be developed. By analyzing the relationship between weather data and health, the platform would establish indices, set health risk thresholds based on the weather conditions, and provide health-related guidelines specifically to the medical conditions of different users.)
